

JAMES (JJ) LOWERY.

SYSTEMS ANALYST | BUSINESS SYSTEMS ANALYST

Tucson, AZ | Remote

PROFESSIONAL SUMMARY

Systems-oriented business and technology professional with 10+ years of experience turning ambiguous operational problems into structured workflows, decision-support systems, automation, and reliable application behavior. Experience spans executive operations, business ownership, requirements and business-rule definition, process improvement, data/reporting systems, root-cause analysis, regression testing, and production change validation. Built systems used in daily business operations and currently develops a transactional personal-finance application through AI-assisted, Git-based workflows.

CORE SKILLS

Analysis & requirements

Systems Analysis · Business Systems Analysis · Requirements Analysis · Functional Requirements · Business Rules · Current-State / Future-State Analysis · Process Mapping · Workflow Design · User Stories · Acceptance Criteria · Edge Cases

Google Sheets · Excel · Salesforce · GA4 · Google Tag Manager · Conversion Tracking · Attribution · Triple Whale · Supermetrics · Dataslayer

SELECTED SYSTEMS WORK

Redesigning Income Planning Around Real Cash Flow ↗

Vector
Separating actual income, expectations, planning intent, and funding to define financial behavior that stays consistent with reality.

Diagnosing a Production-Scale Performance Failure ↗

Vector
A production-shaped reproduction isolated an expensive database helper. A minimal redesign reduced measured helper time while preserving existing behavior.
